

**PEST CONTROL SERVICES
QUESTIONS AND ANSWERS
SDR860-14-R-0009**

PART 3

- 1. We can do a general inspection of places to work? This in order to have an appreciation of the environmental conditions , location of each of the points to try and establish a work plan , cost and price according to the actual conditions of the facilities. If we visit your facility, please indicate date, time and contact person.**

There will be no site visits. The contract is for recurring entomological and pest control services, when needed, at the New U.S. Embassy Compound in Santo Domingo and U.S. Embassy residences throughout the city.

- 2. There is visible termite infestation or other insect that attacks the wood? We need to know its location , extent and affected areas to select the most appropriate method of control and their impact on the implementation plan.**

The contract is for recurring entomological and pest control services, when needed, at the New U.S. Embassy Compound in Santo Domingo and U.S. Embassy residences throughout the city. Refer to the Statement of Work for details.

- 3. Are there all work locations in the new facilities of the U.S. Embassy in Santo Domingo?**

The contract is for recurring entomological and pest control services, when needed, at the New U.S. Embassy Compound in Santo Domingo and U.S. Embassy residences throughout the city.

- 4. You can put the prices of treatments against insects that attack wood and fungi and nose bag boxes in an additional line to the specified on page 4 as this type of work requires tools, equipment and methodology different to that used for the control of crawling and flying insects and rodents (rats and mice)? Something like this:**

Category	Unit of Measure	Unit Price
Termite treatment with drilling	m2	
Termite treatment without drilling	m2	
Woodworm treatment	m2	

**Antifungal treatment
Rodenticide bait box**

**m3
Unit**
